

Making AP automation your reality.

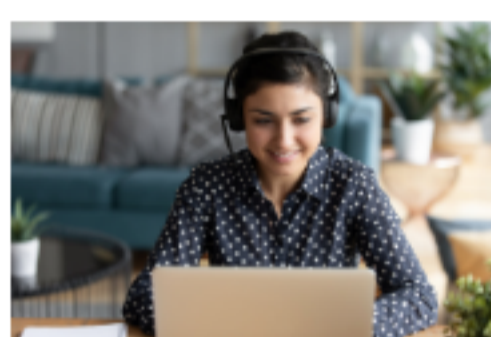

**INSIGHTS** Issue 11 Vol. 1

## The 6 Biggest Myths About Accounts Payable Automation

The way that most accounts payable departments process and post their invoices costs too much, creates too many errors, provides inadequate visibility, and frustrates suppliers and coworkers. Yet the solution – AP automation – is frequently cast aside for “competing priorities.”

## How to Process Invoices when Staff Work Remotely

It will be hard for accounts payable leaders to achieve incremental process improvements unless they digitize the way their department receives, approves and posts invoices when staff work remotely.

## Why Integrate AP Automation with Your Media Planning Software

Buying ads doesn't sound so hard. But the reality of paid media is much different. There's clearly a lot that goes into reaching the right audience and increasing conversion rates. Integrating AP automation with your media planning software can streamline the process.

## How AP Automation is helping make Work from Home, work better!

The operational disruption caused by shift to remote working has exposed and exacerbated the shortcomings of manual and semi-automated approaches to receiving, processing, posting and paying supplier invoices. Watch the recording of the IOFM Webinar: **How AP Automation is Helping Children's Hospital of Philadelphia (CHOP) Make Work from Home, Work Better.**
